

MICHIGAN'S ELECTRIC BICYCLE LAW FOR THE ROAD

- » Electric bicycles are regulated like bicycles. The same rules of the road apply to both electric bicycles and human-powered bicycles.
- » Electric bicycles are not subject to the registration, licensing, or insurance requirements that apply to motor vehicles.
- » Michigan designates three classes of electric bicycles:
 - Class 1: Bicycle equipped with a motor that provides assistance only when the rider is pedaling, and that ceases to provide assistance when the electric bicycle reaches 20 mph.
 - Class 2: Bicycle equipped with a throttle-actuated motor, that ceases to provide assistance when the electric bicycle reaches 20 mph.
 - Class 3: Bicycle equipped with a motor that provides assistance only when the rider is pedaling, and that ceases to provide assistance when the electric bicycle reaches 28 mph.
- » Class 1 electric bicycles are allowed on bike paths and linear trails; while Class 2 or 3 electric bicycles are not, unless the local agency authorizes them. When in doubt, check with your town, city, or county for local rules and regulations.
- » Helmets are required for riders of Class 3 electric bicycles under 18 years of age. Persons under 14 years of age may not ride a Class 3 electric bicycle, unless they are riding as a passenger. To ride an electric bicycle within the Mackinac Island State Park, a permit is required.

*The following Michigan laws are referenced: Mich. Comp. Laws §§ 257.32b, 257.216, 257.312a, 257.801e, 750.419.

eMTB GUIDELINES

- » On federal, state, country and local trails, electric mountain bike (eMTB) access varies significantly.
- » Generally, any natural surface trail that is designated as open to both motorized and non-motorized uses is also open to eMTBs.
- » eMTBs may not be allowed on trails managed for non-motorized activities.
- » Do not ride your eMTB in areas where the local rules are unclear. Ride legally and only on authorized trails to show that mountain bikers are responsible trail users.
- » When in doubt, ask your local land manager about access to specific trails. Local land rules change frequently.

MICHIGAN'S ELECTRIC BICYCLE LAW FOR TRAILS

- » LOCAL: Consult your local land management agency.
- » STATE: Currently, the Michigan Department of Natural Resources does not allow electric bicycles on natural surface trails like hiking or MTB trails. Electric bicycles are permitted on improved surface linear trails and rail-trails. Contact the department for the most up to date information. PeopleForBikes is monitoring this policy and will update this document as needed.
- » FEDERAL: The majority of public lands managed for recreation in Michigan are under the jurisdiction of the U.S. Forest Service, where eMTBs are considered motorized vehicles and have access to motorized trails. Contact the U.S. Forest Service Eastern Regional Office for more information.

GREAT eMTB RIDES IN MICHIGAN

- » **Huron-Manistee National Forest Trail**
Oscoda | 22 miles
- » **Keweenaw State Trail**
Copper Harbor | 51.7 miles

With an electric bicycle, bicyclists can ride more often, farther, and for more trips.

Electric bicycles are designed to be as safe as traditional bicycles, do not compromise consumer safety, and benefit bicyclists who may be discouraged from riding a traditional bicycle due to limited physical fitness, age, disability or convenience.

In many states, electric bicycles are regulated under antiquated laws primarily aimed at combustion engine vehicles such as mopeds or scooters. PeopleForBikes is clarifying state laws governing the use of electric bicycles in the U.S. Every state's law is different, but the objective is to ensure that low-speed electric bicycles are regulated similarly to traditional, human-powered bicycles.
